HOW TO BECOME A SELLER

To begin selling on this app, you need to create a seller's account.
To open an account, visit login page and click on the "Register" link at the login page and enter your details.

The screenshot shows a web browser window with the URL `172.16.25.147/online_trading/files/login.php`. The page has a dark header with the text "Online Trading" and a search bar. Below the header, the word "LOGIN" is displayed in large letters, followed by the text "First Login here to view All your account information". The main content area is divided into two columns. The left column is titled "NEW CUSTOMER" and contains the text "Register Account" and "By creating an account you will be able to shop faster, be up to date on an order's status, and wish for the items you want." Below this text is a blue "Register" button. The right column is titled "RETURNING CUSTOMER" and contains the text "I am a returning customer". Below this text are two input fields: "Userid:" and "Password:". Below these fields is a blue "Login" button. The browser's taskbar at the bottom shows various application icons and the system clock indicating 9:20 PM on 18/04/2014.

CHOOSE A SELLING FORMAT

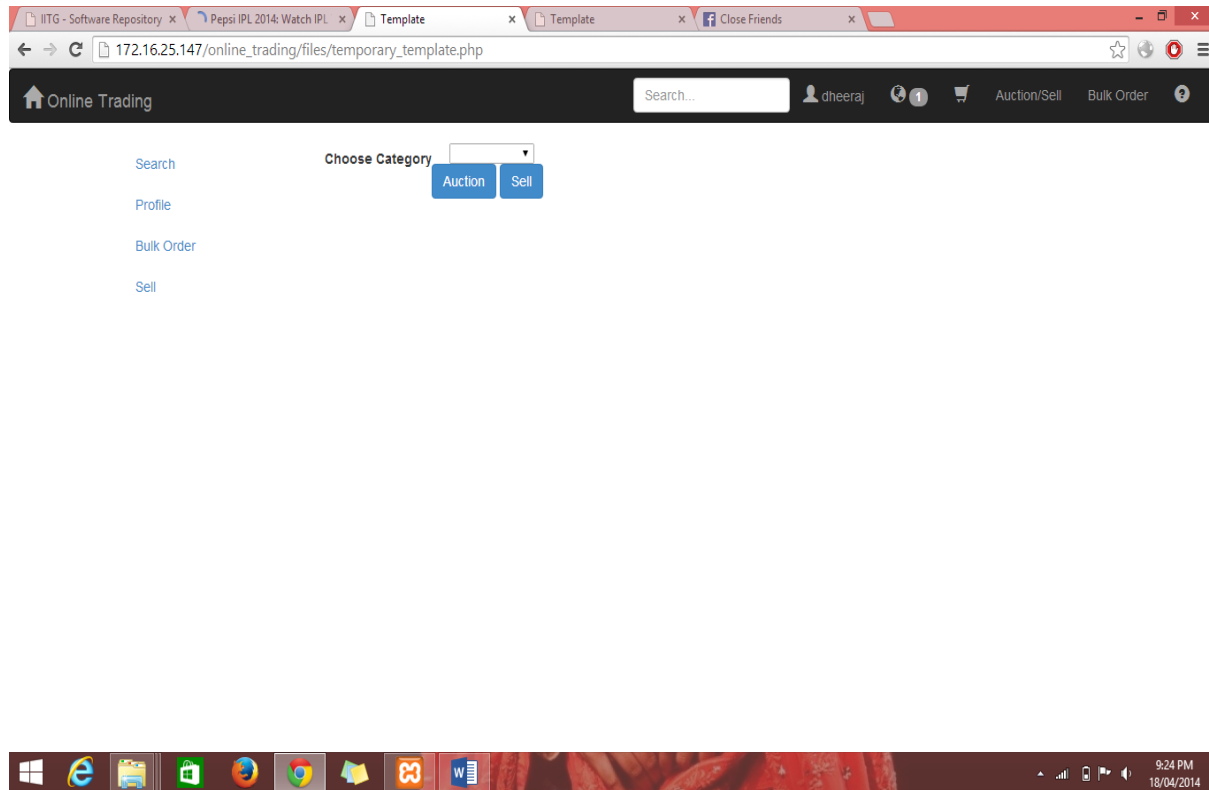

There are two ways to sell your stuff, either through an auction-style listing or at a fixed price.

Auction Format

Here you can list an item for a specified amount of time and buyers must place a bid to purchase your item, that is higher than the last bid placed.
At the end of the Auction, buyer with highest bid wins the item.

Sell

Here seller can directly sell his item with given specified price.

BUYING ANY ITEM

If you are an unregistered user then first you have to create an account by the method described above.

There are two ways to buy any item, either through an auction or at a fixed price

Auction

If the item you want to buy is listed in auction then you have to place a bid to buy that item, at the end of the auction if your bid is highest among the all other bidders then you will be the buyer of that item.

Sell

If the item you want to buy is for a fixed price sell then you can directly purchase that item by adding that item into the cart.

PROFLE

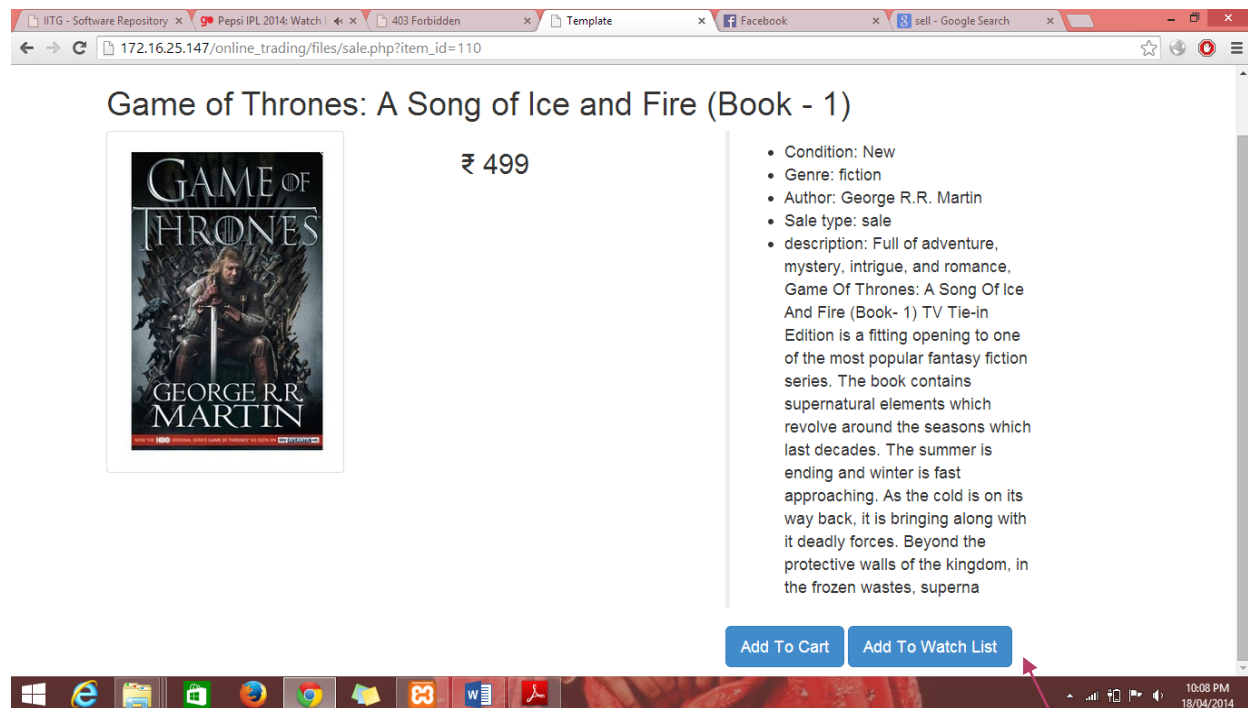

Here you can update your account and view your orders any time.

Your Profile allows you complete control over your transactions

- Manage/edit your personal data like address, phone numbers, email ids.
- Change your password.
- you will get recommendation from us based on your past history.

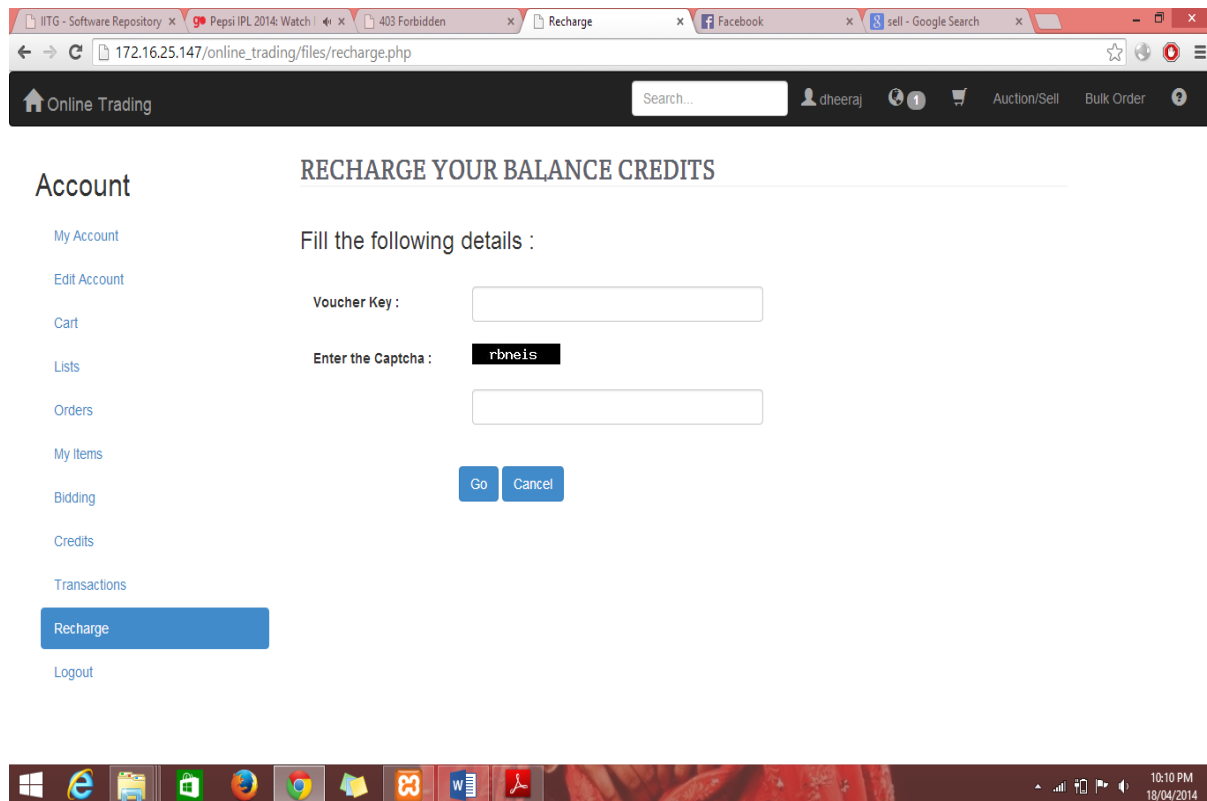

WISHLIST AND WATCHLIST

If any item currently not present in stock then u can add that item to wishlist, whenever that item will be available we will inform you via notification. If u want to keep track of auction of any item u can add that item to watchlist.

MY WALLET

To buy anything through this app you should have sufficient amount in your wallet. You can get that amount by using recharge voucher.

BULK ORDER

1. users are of two types:

vendors: are shopkeepers who have their store and they supply the things to buyers.

i.

2 vendor's task is the following:

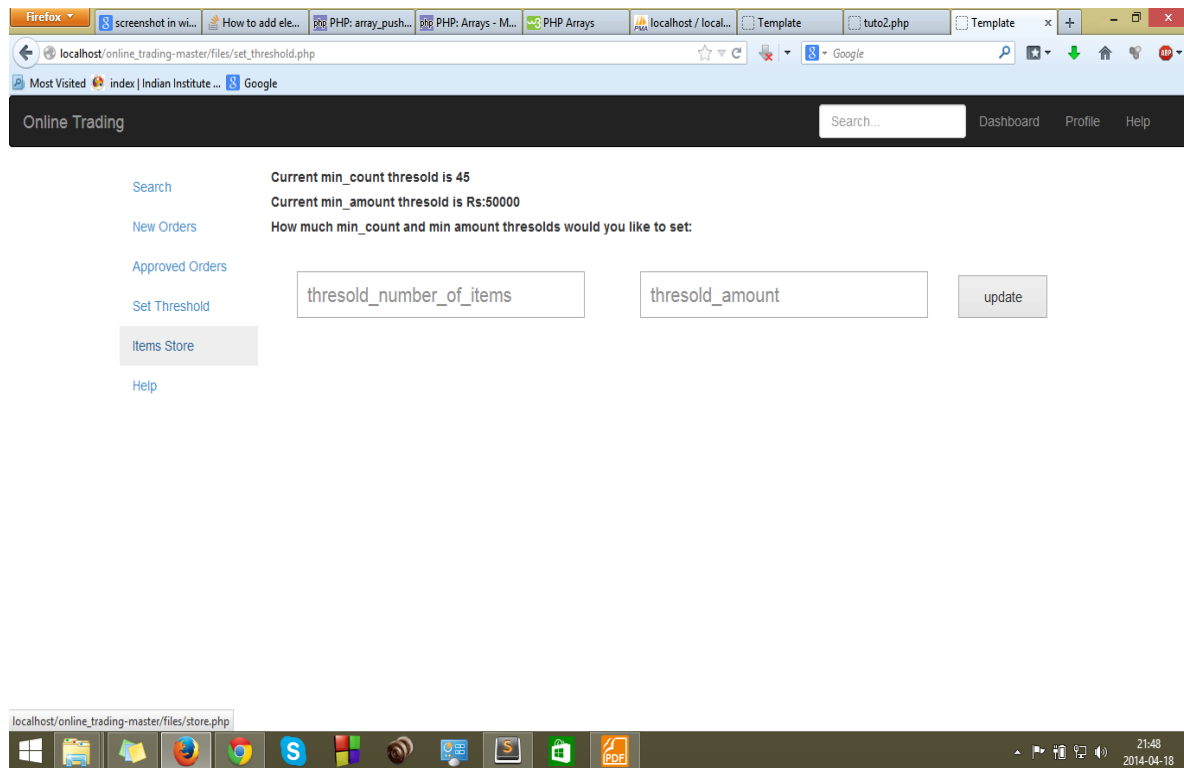

a. New Orders: In this section vendor will see the order-list to him by the buyers. When he presses ship button, orders are marked seen and moved from bulk_order table to 'old_bulk_order' table. Here ship means vendor is going to ship the items. Also buyers are notified about their items' shipping status.

b. Approved Orders: In this section vendor will see order's history from 'old_bulk_orders' table. Two types of orders are there in this table:

i. Status YES: These orders are just for order's history purpose. This history is also available for corresponding buyers in order-list menu of their account.

ii. Status NO: These are the orders which have been seen by the vendor and he has started shipping but not yet received by the buyer. As the buyer receives his orders vendor has to set the status = 'YES'. Then billing detail is sent to the buyer as downloadable PDF file to his email by the system automatically.

a. Set thresholds : Bulk_order is only considered to be shipped when either no. of items ordered or the total cost of the ordered items reaches to its minimum threshold or be greater than the minimum threshold. These two thresholds are set by the vendor in this section. Also the vendor can see the current thresholds.

- b. Store: In this section vendor's store details are shown in table view. He can update the existing items' details such as price etc .

Bulk_order's important part is discount .So for this purpose we have kept two columns for each item:

i. Thresold of no. of orders: This is minimum no. of items at which discount is available.

ii. Discount : Discount on no. of orders at least equal to threshold no. of orders.

Vendor can update all the details related to his store in the store section.

3. Web user(Buyer):

a. He /She can search and order for the items. These orders are sent to the corresponding vendor only when the either all ordered items' count or price becomes greater than or equal to the thresholds set by the vendor.

b. We take shipping details address , phone etc from the user's account itself.

c. He can see the history of his orders in the order-list section

CART DISPLAY PAGE

When the cart and saved items list is empty:

The screenshot shows the top navigation bar with a home icon, 'Online Trading', a search bar, a user profile icon with ID 't9WZo2tb47', and links for 'Auction/Sell', 'Bulk Order', a mail icon, and a help icon. Below the navigation bar, the main heading is 'Your Shopping Cart'. A purple message states: 'Your shopping cart is empty, but it doesn't have to be.' Below this, another purple message says: 'There are lots of great deals awaiting you to bid or buy.' A blue link 'Start Shopping' is circled in red. To the right of the messages is a grey box labeled 'Cart Summary (0 Items)'. Below the shopping cart section is the 'Your Saved Items' section, which includes the text 'Want to save items in your cart to buy later?' and a paragraph: 'Then just click the "Save for Later". Remember, saved items aren't reserved for you, so don't wait too long to buy them.'

- Click on “continue shopping ” link to go to the index page.

The user can add items to his cart which he can checkout . If the user wishes to check out an item in future he can add it to his saved items list by clicking on the save for later link.

When the cart contains some items :

- The items in your cart are displayed in the following format.
